Innovative Ideas

(1) Building height shall be correlated to the scale of the street along which it faces and shall encourage a comfortable pedestrian-oriented environment.

a. The standard building height for projects shall be up to four stories or 45 feet.

b. Increased building heights above four stories or 45 feet may be considered up to six stories or 65 feet if height-increasing measures such as a building setback (as illustrated in Figure 2 and Figure 2a) or setbacks are proposed and approved by the community appearance board. Buildings exceeding 45 feet shall provide a setback of at least 14 feet along all sides facing a public roadway.

c. Increased building heights above 65 feet may be considered pursuant to a Planned Development (PD) approved by the city council on a case-by-case basis and shall provide additional setbacks of at least 14 feet for each four stories above 45 feet or heights above 45 feet.

Welcome
Welcome to the City of Atlantic Beach Land Development Regulations (LDR) Rewrite website developed specifically to provide assistance during the City's revision process. Along with the Northeast Florida Regional Council (NEFRC) and Kimley-Horn and Associates, Inc. (KHA), the City of Atlantic Beach is rewriting their LDR's to update, simplify, modernize and improve this document, which is used to regulate all development within City limits. Please use this site to stay up-to-date with the project's progress and to provide the much-needed feedback necessary to complete this rewrite process.
