

# PROPOSED VISION STATEMENT

Nov. 22, 2021

In Atlantic Beach, we are graced by the beauty and function of our natural assets: our beach, our marsh, and our tree canopy. Our citizens and government care about community character and understand the collective action required to preserve it. Our safe neighborhoods, parks, green spaces, active lifestyle and socially linked community support all generations, from young families to those who are aging in place. And our pedestrian-friendly neighborhoods are connected by shady streets and multi-use paths from the marsh to the beach.
