Notary Signature
 My Commission expires 2-14-23

The following paragraph sets forth reasons for which a Variance may be approved, please check the circumstances that apply to your request and briefly describe in the space provided.

Grounds for approval of a Variance: A Variance may be granted at the discretion of the Community Development Board, for the following reasons.

1. Exceptional topographic conditions of or near the property.

2. Surrounding conditions or circumstances impacting the property disparately from nearby properties.

3. Exceptional circumstances preventing the reasonable use of the property as compared to other properties in the area.

4. Onerous effect of regulations enacted after platting or after development of the property or after construction of improvements upon the property.

5. Irregular shape of the property warranting special consideration.

Original variance's square footage for pergola was approved. New construction increases square footage, but no closer to property line. See below for additional information.

6. Substandard size of a Lot or Record warranting a Variance in order to provide for the reasonable use of the property.

- a. Approval of a Variance. To approve an application for a Variance, the Community Development Board shall find that the request is inaccordance with the preceding terms and provisions of this Section and that the granting of the Variance will be in harmony with the Purpose and Intent of this Chapter.
- b. Approval of Lesser Variances. The Community Development Board shall have the authority to approve a lesser Variance than requested if a lesser Variance shall be more appropriately in accord with the terms and provisions of this Section and with the Purpose and Intent of this Chapter.
- c. Nearby Nonconformity. Nonconforming characteristics of nearby Lands, Structures or Buildings shall not be grounds for approval of a Variance.
- d. Waiting period for re-submittal. If an application for a Variance is denied by the Community Development Board, no further action on Another application for substantially the same request on the same property shall be accepted for 365 days from the date of denial.
- e. Time period to implement Variance. Unless otherwise stipulated by the Community Development Board, the work to be performed pursuant to a Variance shall begin within six (6) months from the date of approval of the Variance. The Community Development Director, upon finding of good cause, may authorize a one time extension not to exceed an additional six (6) months, beyond which time the Variance shall become null and void.
- f. A Variance, which involves the Development of Land, shall be transferable and shall run with the title to the Property unless otherwise stipulated by the Community Development Board.

ADDITIONAL COMMENTS:

Original variance for a pergola was approved with a soft material (more like an awning). When a variance was required, company dropped out of consideration for the project. We have decided to go with a modular pergola system that needs a bit more square footage (due to the materials being used) to work in our back yard. The pergola is additional square footage, but no closer to our property line.
