

# MAP A-4: Environmentally Sensitive Areas

## *City of Atlantic Beach 2045 Comprehensive Plan Amendment Map Series*

-  Habitat Areas
-  Estuarine and Marine Wetland
-  Freshwater Forested/Shrub Wetland
-  Estuarine and Marine Deepwater
-  Coastal Construction Control Line

Habitat areas identified by the Florida Fish and Wildlife Conservation Commission include those for Loggerhead Sea Turtle, Atlantic Sturgeon, Shortnose Sturgeon, Stone Crab, Caribbean Spiny Lobster, Brown Shrimp, Blue Crab, Pink Shrimp, and White Shrimp.

Wetland and habitat areas identified in this map should be used for general reference, not for legal purposes or detailed analysis. Local determinations always require field inspection.
